Interpretative phenomenological analysis - Wikipedia Interpretative phenomenological analysis (IPA) is an approach to psychological qualitative research with an idiographic focus, which means that it aims to offer insights into how a given person, in a given context, makes sense of a given phenomenon. Usually these phenomena relate to experiences of some personal significance, such as a major life event, or the development of an important relationship. Phenomenological Interpretations of Ancient Thought ... The phenomenological tradition has had a profound impact on the way ancient philosophy is understood, both within academic philosophy and in Western culture as such. Still, very few systematic explorations of this way of approaching ancient philosophy exist.
